Message from the Vice-Chancellor

I am honoured to share with you the annual report for the Community Connect initiative for 2023-24. It is a continued commitment to making a positive difference in the world around us. Community Connect exemplifies our dedication to bridging academia with the pressing needs of society, fostering a collaborative spirit that benefits both our students and the communities we serve.

This year has seen remarkable strides in our efforts. Students and faculty have engaged in transformative projects, addressing challenges across education, healthcare, environmental preservation, and social justice. These initiatives have not only enhanced students' academic journeys but have also built empathy, responsibility, and a genuine commitment to public service. Our students have had the privilege of working with inspiring community partners, leaders, and organizations, each project strengthening their sense of purpose and ability to contribute meaningfully.

I am immensely grateful to the dedicated faculty, staff, and community partners who make these efforts possible, as well as to our students, whose enthusiasm and dedication bring our mission to life. Moving forward, we are excited to further expand Community Connect's impact, embedding even more opportunities for experiential learning into our programs and cultivating socially conscious graduates prepared to lead with insight and compassion.

Thank you for your continued support and for joining us on this inspiring journey. Together, we are building a stronger, more inclusive future for all.

Prof. Sibaram Khara
Vice-Chancellor, Sharda University

Message from the Pro Vice-Chancellor

It is a privilege to share the annual report of the Sharda University's Community Connect initiative, an embodiment of our university's commitment to social responsibility, experiential learning, and transformative impact. Community Connect continues to play an invaluable role in nurturing a sense of civic duty among our students, encouraging them to step beyond the classroom and engage meaningfully with the world around them.

Over the past year, our students and faculty have contributed to projects addressing some of society's most pressing issues, from healthcare and education to environmental conservation and community development. These experiences have enriched our students' academic journeys, helping them develop essential skills like leadership, empathy, and resilience. By working with local organizations and leaders, they have gained a deeper understanding of societal challenges and learned the true value of contributing to the greater good.

None of this would be possible without the tireless efforts of our faculty, staff, and the community partners who have supported our students in their endeavours.

Thank you for your unwavering support and for being a part of this journey toward building a more compassionate and resilient society.

Prof. (Dr.) Parma Nand
Pro Vice-Chancellor, Sharda University

Message from the Dean Academic Affairs

It is my pleasure to share the achievements of our Community Connect initiative in this year's annual report. Community Connect has become an integral part of our educational philosophy at Sharda University, bridging classroom learning with community engagement and fostering a deeper understanding of the social challenges and needs within our communities. By participating in this initiative, our students gain valuable, hands-on experience that builds their academic skills and nurtures empathy, leadership, and a strong sense of civic responsibility.

Throughout the year, our students and faculty have worked collaboratively on impactful projects across healthcare, education, environmental conservation, and social equity. These projects are designed not only to address immediate needs but also to inspire long-term positive change within our partner communities. Our students have had the unique opportunity to work alongside local organizations and leaders, learning from real-world issues and actively contributing to solutions. These experiences are vital in shaping graduates who are both skilled professionals and compassionate, informed citizens.

The success of Community Connect would not be possible without the unwavering dedication of our faculty, staff, and community partners.

Message from the Associate Dean Academic Affairs

It is with great pride and a sense of fulfillment that I share this message for the Annual Report of *Community Connects*. The initiative embodies the spirit of collaboration, service, and transformative education, values that are integral to the mission of our institution.

Over the past year, *Community Connects* has grown into a platform that not only enhances the learning experiences of our students but also enriches the lives of the communities we engage with. Through innovative projects, hands-on involvement, and a commitment to addressing real-world challenges, our students and faculty have showcased the power of academic knowledge applied in meaningful ways.

The highlights of this year reflect a collective dedication to fostering inclusivity, sustainability, and innovation towards rural India. From grassroots projects to large-scale initiatives, every effort has contributed to building stronger ties with our community partners and making a positive, tangible impact.

I extend my heartfelt gratitude to the entire team behind *Community Connects*—students, faculty, staff, and collaborators. Your dedication and passion have made this initiative a beacon of hope and progress. I also thank our community partners for trusting us and allowing us to learn and grow together.

As we look ahead, let us continue to strengthen this bridge between academia and the community, ensuring that our institution remains a catalyst for social good and transformative learning.

Prof. Pallavi Gupta
Associate Dean, Academic Affairs

Message from the Head, Community Connect

It gives me immense pleasure to present this message for the Annual Report of *Community Connects*. This initiative has been a cornerstone in bridging the gap between academia and the community, fostering a spirit of collaboration, empathy, and impactful change.

The past year has been remarkable in terms of achievements and learning. Our students, faculty, and partners have worked together on diverse projects that address pressing societal challenges, promote sustainable practices, and uplift underserved communities. These endeavors not only contribute to the well-being of society but also provide our students with invaluable experiential learning opportunities.

The essence of *Community Connects* lies in its ability to bring people together—students with communities, ideas with actions, and challenges with solutions. Every activity undertaken this year has reinforced our belief in the power of collective effort and the importance of giving back to society specialy to rural India.

I want to express my deepest gratitude to everyone who has been a part of this journey—the students for their enthusiasm, the faculty for their guidance, and our community partners for their trust and collaboration. Your contributions have been instrumental in making this initiative a success.

As we move forward, I am confident that *Community Connects* will continue to thrive as a platform for meaningful engagement and transformative impact. Together, let us keep working towards a brighter, more inclusive future.

Prof. Bhim Singh
Head, Community Connect.

1 Introduction

1.1 Introduction to Community Connect

The origin of the Community Connect initiative in higher education is closely linked with the goals of India's National Education Policy (NEP) 2020, which emphasizes holistic education, experiential learning, and a strong focus on social responsibility. Recognizing that higher education institutions have a profound role to play in societal development, the NEP encourages universities to integrate community engagement as a central part of their curricula. In line with this policy and the University Grants Commission (UGC) recommendations, Sharda University established its Community Connect program as a platform to provide students with the opportunity to apply academic knowledge in real-world contexts, addressing local and national challenges and contributing to the public good.

The New Education Policy advocates a learner-centric approach, one that not only prepares students for their careers but also develops responsible citizens. Community Connect is a direct response to these principles, integrating service learning with academic coursework to produce well-rounded graduates. Through this initiative, Sharda University actively supports the NEP's goal of promoting knowledge that transcends traditional classroom boundaries, focusing on sustainable solutions that address issues in education, healthcare, environmental sustainability, and economic empowerment.

Inspired by the UGC's directives on social responsibility and university-community linkages, Sharda University's Community Connect program was designed to foster partnerships with local communities, non-profits, and government agencies. These collaborations enable students to immerse themselves in social projects where they can develop empathy, critical thinking, and leadership skills—qualities that the NEP envisions as essential for modern graduates. Additionally, the program emphasizes reflective learning and problem-solving, empowering students to work effectively within diverse social contexts and to understand the broader implications of their actions.

The origins of Community Connect also reflect Sharda University's dedication to producing socially conscious graduates who are prepared to contribute positively to the nation. Through this program, students gain firsthand experience in tackling real-world challenges, guided by faculty mentors who provide both academic and ethical perspectives on community work. This emphasis on experiential learning resonates with the NEP's vision of education as a tool for societal transformation, where students are encouraged to engage in projects that address social issues and contribute to community upliftment.

Community Connect at Sharda University is more than an academic program; it is a journey of personal and social growth. Students engage in diverse initiatives—from health awareness drives and environmental conservation efforts to educational outreach and skills training—that benefit both their learning experience and the communities they serve. The initiative aims to cultivate a mindset of service, civic responsibility, and sustainability, aligning seamlessly with the NEP's call for building an education system rooted in compassion, ethics, and real-world impact.

As Sharda University continues to expand the scope of Community Connect, it remains committed to the NEP's transformative vision for higher education. By embedding community engagement into the curriculum, Sharda aims to shape graduates who are not only academically accomplished but also socially aware and driven by purpose. The Community Connect program exemplifies the university's alignment with the UGC's recommendations and the NEP's goals, ensuring that higher education serves as a powerful agent of change in society. Through Community Connect, Sharda University is proud to contribute to the vision of a more inclusive, compassionate, and responsible India.

1.2 Community Engagement Programs in India

1. **Social Responsibility Focus:** Universities across India are increasingly emphasizing social responsibility, encouraging students to actively participate in addressing societal issues such as education, healthcare, and environmental sustainability.
2. **Collaboration with Local Communities:** Many higher education institutions collaborate with local communities, NGOs, and government bodies, providing students with opportunities to engage directly with real-world problems and solutions.
3. **Experiential Learning:** Community engagement programs integrate experiential learning into academic curricula, allowing students to apply theoretical knowledge in practical, hands-on projects that benefit society.
4. **Addressing Marginalized Communities:** Programs often focus on uplifting marginalized communities, offering educational support, health awareness, skill development, and other initiatives aimed at reducing socio-economic disparities.
5. **Alignment with NEP 2020:** The National Education Policy (NEP) 2020 promotes the integration of community engagement as part of higher education, encouraging universities to cultivate a sense of civic responsibility and ethical leadership among students.
6. **Holistic Development:** These programs help students develop critical skills like leadership, teamwork, empathy, and problem-solving, preparing them to become socially-conscious leaders in their respective fields.
7. **Sustainable Development Goals and Long-Term Impact:** Many programs aim for sustainable, long-term impact, fostering collaboration and solutions that continue to benefit communities beyond the duration of student involvement.
8. **Community Connect event & Sustainability Development Goals:** Community Connect Events are initiatives that promote interaction and collaboration within local communities, focusing on common issues, knowledge sharing, and building a stronger, more inclusive community. These events are a powerful way to raise awareness about the Sustainable Development Goals (SDGs), which are 17 global goals adopted by all United Nations Member States in 2015. These goals cover areas like poverty eradication, quality education, gender equality, clean water, climate action, and peace and justice. Engaging individuals and organizations at the local level can significantly advance the SDGs and bring communities closer to realizing these global goals.

2 Community Connect Program at Sharda University

2.1 University Level Operations

Sharda University's Community Connect program is a comprehensive initiative aimed at bridging the gap between academic learning and community engagement. It is designed to foster social responsibility, enhance practical learning, and encourage students to actively contribute to societal development. With 14 diverse schools offering programs in fields such as Engineering, Medical, Dental, Law, Social Science, Basic Science, and Health Science, the program leverages the broad expertise of Sharda University's academic disciplines to address a wide range of community needs.

Key features of the Community Connect program include:

- **Interdisciplinary Collaboration:** Students from different schools and departments collaborate on projects that align with their academic backgrounds, such as healthcare initiatives, legal aid, environmental sustainability, and educational outreach.

- **Role of Community Connect Co-ordinators:** The success of Community Connect is driven by the active involvement of Deans, Department Heads & Community Connect Co-ordinator, who oversee and guide projects in their respective fields. They are responsible for ensuring faculty and students engage with relevant community projects, linking academic knowledge with real-world applications.
- **Diverse Community Engagement:** Students apply their knowledge to address local and national issues, contributing to sustainable solutions in sectors such as healthcare, law, education, and infrastructure. For example, Engineering students might focus on building eco-friendly infrastructure, while Medical and Health Sciences students may provide healthcare services or awareness campaigns.
- **Holistic Skill Development:** Through hands-on community work, students develop essential skills such as leadership, empathy, teamwork, and problem-solving. This enhances their academic learning while fostering a sense of civic responsibility.
- **Communication Skills Development:** Effective communication is crucial when interacting with people from different backgrounds, requiring adaptability, empathy, and understanding of diverse perspectives. Key skills include active listening, respect, clarity, non-verbal cues, and empathy. Active listening builds trust, respect avoids misunderstandings, and clear language avoids jargon. Non-verbal cues, such as body language and facial expressions, also impact the message. Handson community work individuals promotes better communication skills, reduces conflicts, and creates meaningful connections.

Sharda University's Community Connect program is a vital part of its commitment to creating well-rounded graduates who are not only experts in their fields but also responsible citizens dedicated to contributing positively to society. Through this initiative, the university continues to empower students to make a meaningful difference in communities while preparing them for successful careers and social leadership.

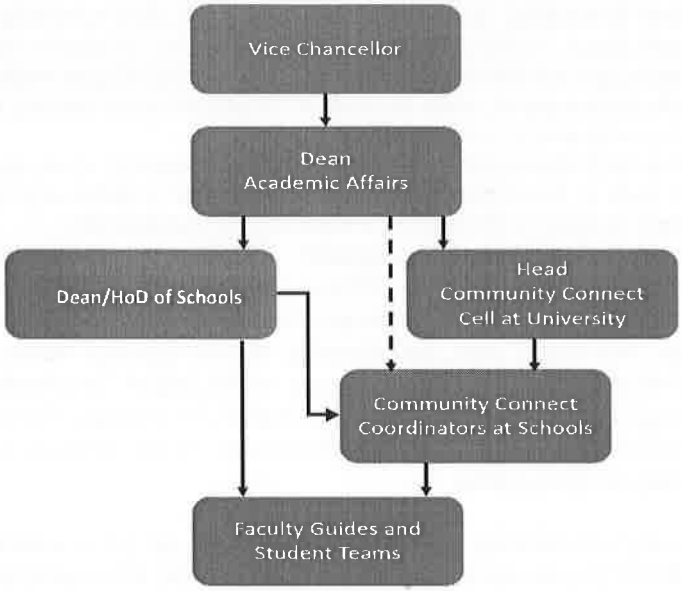

2.2 Key Principles for Community Engagement

In light of the global and national approaches currently prevalent, the following key principles shall guide community engagement of HEIs:

- Partnership between HEIs and local communities should be based on mutual learning and respect.
  - Students visit villages and other communities to learn from.
  - Students have communication with large number of people from different communities which benefits them in understanding social problems.
  - Students analyse the information and put forward the major concernes faced by the communities under various problems statements.
  - Students may provide service, assistance & benefits to community in various forms.
- University-wide implementation of the program, in each faculty and discipline.
  - Under NEP 2020 guidelines all schools of Sharda University have made it mandatory for their students to under Community Connect program once during their course.
- Formal crediting for students and teachers.
  - The course is a 2-credit course for all programme at Sharda University, except programmes following council standards.
- Linkages with local institutions, such as local governments, district administration, local entrepreneurs, business and local NGOs.
  - Sharda provides help in the form of services, advice, awareness campaign, etc in order to improve the lives of people it touches.
  - Apart from the 5 villages that Sharda has adopted, Community Connect touches the lives of people in dozens of communities.

Apart from these villages, surveys and projects were carried out in many areas of Delhi/NCR and Ghaziabad. Surveys were also conducted in Bihar and Manipur in India.

Outside India, our students conducted community engagement programs in Burkina Faso and Nigeria.

5.1 Outcome of Community Connect.

The community connect initiative by Sharda University has yielded remarkable outcomes, showcasing the institution's commitment to addressing societal challenges and fostering innovation. Here are the key outcomes of the initiative:

i. **Impact on Rural Communities**:
Students and faculty visited nearby rural communities to identify and address local challenges. Their active engagement has led to tangible solutions and enhanced the quality of life in these areas.

ii. **Academic Contributions**:
   a. **Research Papers**: Faculty and students have published research papers based on their findings and interventions in rural areas, contributing to the body of knowledge in diverse fields.
   b. **Book Chapters**: Insights from the community connect activities have been compiled into scholarly book chapters, highlighting innovative practices and challenges faced by rural communities.

iii. **Intellectual Property Development**:
   a. **Patents Filed**: Practical solutions developed during the initiative have led to the filing of patents, demonstrating the creativity and technical expertise of the participants.

iv. **Documentation and Reporting**:
   a. Faculty and students have compiled various reports detailing the outcomes of their interventions, serving as resources for future projects and policymaking.

Example: The report of Mechanical Engineering students concluded that drip irrigation is the most suitable system for addressing Girdhapur village's irrigation challenges due to its efficiency in conserving water and enhancing crop yields by delivering precise amounts of water directly to plant

roots. Raingun irrigation is also identified as a viable alternative for larger fields requiring broader coverage. Both methods outperform traditional surface irrigation, providing sustainable solutions that optimize water use, improve agricultural productivity, and support the village's long-term resilience against water scarcity. Another report evaluates and rank organic fertilizer production methods, identifying the most sustainable and efficient option.

5.2 Feedback Analysis

Feedback on the programme was taken from students, faculty as well as community members. The details are given and discussed in the sections below.

This year, we have seen a stabilization of expectations related to Community Connect programme – from students, faculty as well as community members. It indicates that they are now familiar with the programme.

Such a development is heartening, especially when it was done in the face of adverse circumstances created by the COVID crisis.

The questions that were asked of the students are:

1. Q1 - How do you like the experience of Community Connect?
2. Q2 - Was the background training and information sufficient for you to work in the field?
3. Q3 - How would you rate your learning from the field?
4. Q4 - Would you like to go for similar projects in future?

The questions that were asked of the faculty are:

1. Q1 - How do you like the idea of Community Connect?
2. Q2 - Were you clear about the execution of the project?
3. Q3 - How do you rate the learning of the students from the program?
4. Q4 - Would you like to guide Community Connect projects in future?

The questions that were asked of the community members are:

1. Q1 - How was your experience of students visiting your community?
2. Q2 - Did student and community members interact respectfully?
3. Q3 - How do you rate the benefit from students' visit?

4. Q4 - Would you like to have more such visits by our students in future?

The questions were chosen on the basis of their ability to help understand how well the programme is being conducted as well as the potential for improvement in the scope of the programme.

5.2.1 Student Feedback

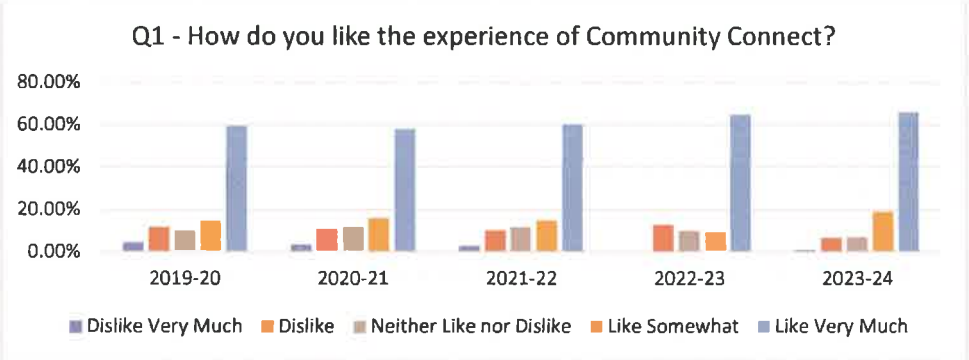

The feedback from students is found quite positive. Compared to previous years, a steady increase in attraction of the programme has been reported.

Question 1: How to you like the idea of Community Connect program?

Students were asked how well they have liked the idea of community connect. The feedback shows that the response to Community Connect idea has become stable as compared to the previous year, with both liking and not liking remaining similar to previous years.

Table 5.1: Student Feedback on the Concept of Community Connect

APPRECIATION	2019-20	2020-21	2021-22	2022-23	2023-24
Dislike Very Much	4.50%	3.40%	2.90%	0.55%	1.00%
Dislike	11.80%	10.70%	10.20%	12.88%	6.80%
Neither Like nor Dislike	9.90%	11.80%	11.80%	10.14%	7.20%
Like Somewhat	14.60%	16.00%	14.90%	9.04%	18.90%
Like Very Much	59.30%	58.10%	60.20%	64.93%	66.10%

Question 2: Was the background training and information sufficient for you to work in the field?

Student were asked if the training/orientation they received was sufficient for the task, and like in the previous question, we see that the responses have become similar to previous years, although the response of 'highly sufficient' has been increasing from previous years.

Table 5.2: Student Feedback on the Training Received

Sufficiency of training	2019-20	2020-21	2021-22	2022-23	2023-24
Highly Insufficient	0.70%	2.40%	1.70%	0.00%	0.00%
Insufficient	5.90%	5.80%	6.20%	3.84%	2.88%
Just sufficient	6.80%	11.10%	11.00%	7.95%	6.95%
Somewhat Sufficient	21.20%	14.30%	14.50%	16.99%	17.99%
Highly Sufficient	65.40%	66.50%	66.60%	68.77%	72.18%

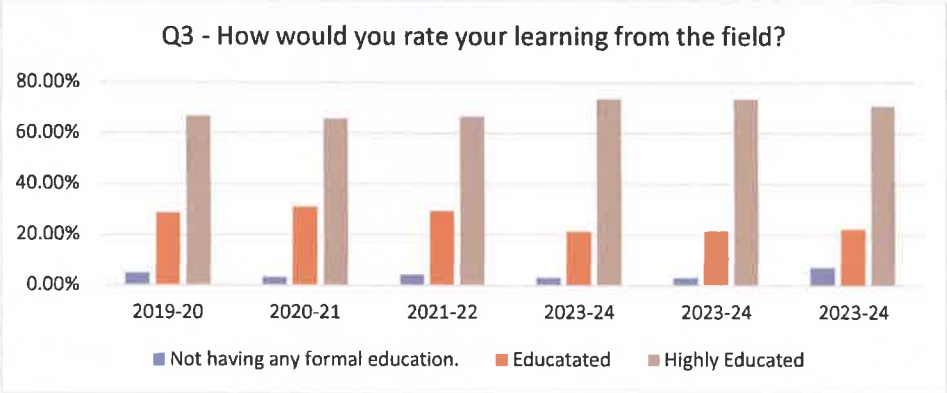

Graph 2.2: Student Feedback on the Training Received

Question 3: How would you rate your learning from the field?

When we compare the responses of 'Highly Educated and 'Educated', we can see that the overall experience of education students feel they get from the Community Connect programme has become stable. And comparing them to the responses of the other questions students were asked, it becomes clear that the programme has achieved stability in terms of expectations and experiences from the students.

Table 5.3: Student Feedback on the Learning Experience

Educational status	2019-20	2020-21	2021-22	2023-24	2023-24
Not having any formal education.	4.70%	3.20%	4.10%	3.01%	3.01%
Educated	28.50%	31.00%	29.30%	21.10%	21.10%
Highly Educated	66.80%	65.80%	66.60%	73.42%	73.42%

Graph 2.3: Student Feedback on the Learning Experience

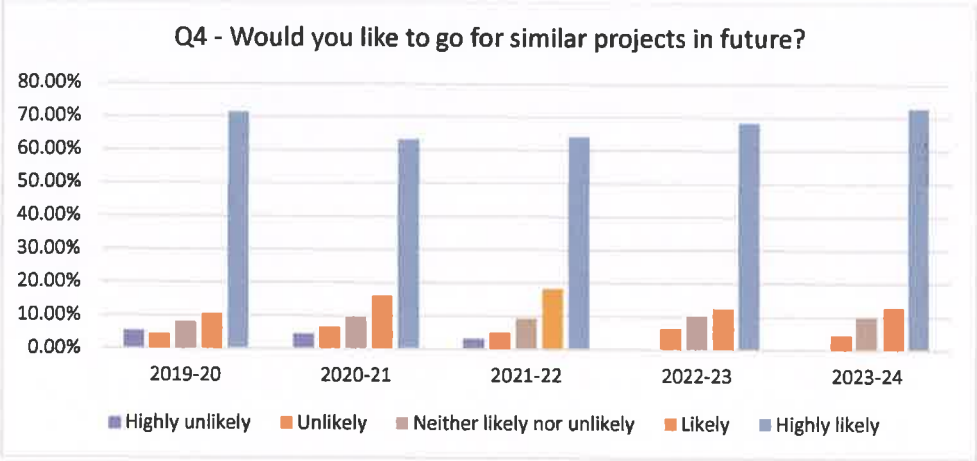

Question 4: Would you like to go for similar projects in future?

The question about likelihood of repeating is asked in order to judge the final impact on the respondent. Therefore, students were asked if they would like to do similar projects in future. Overall, the numbers are stable, but when compared to last years (2019-20), we see a slight decline in the likelihood of repeating but in 2023-24 there is slight jump. This can be explained that in the current year, there was lockdown in both the semesters, while in the previous year, there was lockdown only in one.

As community interaction is a vital part of this programme, the lack of social contact has contributed to the decrease in this statistic.

Table 5.4: Student Feedback on the Attractiveness for Future Projects

Likelyhood of Joining such events in future	2019-20	2020-21	2021-22	2022-23	2023-24
Highly unlikely	5.40%	4.50%	3.10%	0.00%	0.00%
