SECTION B: Event report and reflection

1. **Event objectives-**

The objective of this faculty development programme is to nurture the philosophy of Outcome-Based Education (OBE) and build the capacity and competencies of the faculty members in the teaching-learning system of the university.

The development and implementation of good academic processes in an institutionalized manner by involving all stakeholders for continuous improvement are paramount in assuring the quality of the programmes.

The faculty development programme will have sufficient discussions, deliberations in a case study approach, and provides a hands-on experience on re-engineering or fine-tuning the academic processes that can improve the quality of the outcome. Highly renowned professionals from academia and industry are being invited to enlighten the participants on various areas.

2. **Event description:**

Sharda University, a Leader in the field of Higher Education has taken the initiative to increase and improve faculty standards across all levels, especially in the area of 'Outcome-Based Teaching Learning Methods and Research.
