We Are Hiring—Assistant Professor/ Associate Professor

Sharda University invites applications from highly motivated researchers, academicians, and innovators in the field of **Quantum Computing** to be part of an advanced research-driven ecosystem focused on innovation, interdisciplinary collaboration, and next-generation technology development.

- **Open Research Opportunities in Quantum Computing**
- **Experimental Quantum Computing**

We are looking for researchers with hands-on experimental expertise in one or more of the following areas:

- Quantum Optics
- Fiber Optics & Photonics
- Quantum Sensing
- Quantum Key Distribution (QKD)

Candidates should have practical experimental research experience gained during:

- Ph.D.
- Postdoctoral Research
- Faculty / Research Positions

Theoretical / Computational Quantum Computing

We are seeking candidates with a strong mathematical and theoretical foundation in Quantum Computing and expertise in areas such as:

- Quantum Computing Simulations
- Quantum Communications
- Quantum Machine Learning (QML)

Desired Profile:

- Passionate researchers and innovators
- Academicians with strong research orientation
- Candidates with publications in reputed journals/conferences
- Professionals eager to contribute to breakthrough research and emerging technologies

Eligibility:

- Ph.D. in relevant domain preferred
